Students Feedbacks:

It is so interesting when the activities are being done and I learned a lot of knowledge from this club about nature. I also learned to identify plants, birds sound, types of floras and faunas that is in our environment.

-Tan Kai Jing

I think nature is the most intense connection we have in this world. You don't have to be a mediator to experience the feel of nature, nature club also made me realize how important and wonderful our environmental nature is.

-Nurul Afiah
