

# TEACHERS DAY CELEBRATION

*'If I'm not a teacher' was the theme for Teachers' Day celebration in our school for this year. As days go by, we often think about the future but never our past. Who and where we are today is thanks to these incredible teachers who nurtured and taught us to be successful in life.*

*On 4<sup>th</sup> May 2019, every teacher of HIBS and SMH came to school in their unique costumes according to the theme. Teachers were invited to the Multipurpose Hall (MPH) of the school and were greeted by a row of school prefects handing out corsages for all. The celebration was fantastic as teachers were serenaded by performances by the students.*

*A slideshow presentation of Down the Memory Lane was the highlight of the day where pictures of teachers when they were in school or younger days were shown. As the day is all about appreciating teachers, some teachers were awarded for having 100% passing grades in major exams for their respective subjects. The celebration then continued with futsal and netball tournament with a twist.*

*The men and boys had to dress up as ladies while playing netball and the women and girls had to dress up as men while playing futsal. It was an entertaining match and unforgettable sight to be seen.*
